

GN 1580 Screws and Nuts with EPDM Sealing Ring

GN 1580 Stainless Steel-Screws and Nuts with EPDM sealing ring are ideal for use in hygienic areas. The sealed mounting surface enables components to be mounted without dead spaces.

The material EPDM is characterized by its outstanding resistance to aging, weathering and environmental influences as well as acids and alkalis.

The Screws and Nuts are made of high-quality Stainless Steel A4.

BT-AV Fluted Grip Knobs for fast mounting

The BT-AV fluted grip knobs are made in polyamide based technopolymer, black coloured with a matte finish.

These knobs are designed to allow a fast mounting: the slot in the upper part is in fact an ideal support when you have to tighten with a flat-blade screwdriver.

The BT-AV are available in two different versions BT-AV-B, with brass boss, threaded blind hole and BT-AV-p, with zinc-plated steel threaded stud and chamfered flat end according to UNI EN ISO 4753:2012.
